ISSN 0973-4864

## International Journal of Systemics, Cybernetics and Informatics (IJSCI)

### Reviewer's Report (A model form)

Please indicate [√] on the suitability of the manuscript under the following categories:

<b>A Assessment from Referee</b>			
<b>Technical content</b>		<b>Yes</b>	<b>No</b>
1	Is the topic important or interesting enough to engineers / scientists?		
2	Is the paper technically sound?		
3	Does the paper describe original work?		
4	Are there enough references?		
5	Is the paper reasonably self-contained?		
<b>Effectiveness of presentation</b>		<b>Yes</b>	<b>No</b>
6	Is the abstract an adequate summary and conclusion?		
7	Are keywords indicated in the abstract?		
8	Is the introduction sufficient?		
9	Does the author explain clearly what has been done?		
10	Is the order of presentation satisfactory?		
11	Is the language satisfactory?		
12	Is the paper technically correct and free of obvious errors?		
13	Is the writing style concise and lucid and the tables and figures easy to understand?		
14	Are the implications for practitioners and for researchers clear?		
<b>Length of the paper</b>		<b>Long</b>	<b>Optimal</b> <b>Short</b>
15	The paper should be		
16	Mathematical rigor (Write your comments below)		

Assess paper in the light of the following factors by indicating [√] on the suitability columns and provide details if any.

<b>B Comments</b>			
<b>Factor</b>	<b>Yes</b>	<b>No</b>	<b>Comments</b>
17	Is the central problem for the paper clearly stated?		
18	Are the sub-problem clearly stated?		
19	Are the objectives of the paper clearly stated?		
20	Does the paper evidence plan and organization?		
21	Is the assumption and limitation clearly stated? (if any)		
22	Is the research methodology which has been employed clearly stated?		
23	Did the author interpret the data and results?		
24	Are the conclusions which the author presents justified by the facts presented?		
25	Is there any indication whether the hypotheses are supported or rejected?		
26	Is there any reference to or discussion of related literature or studies by other researchers?		
27	Are the conclusions properly supported and do they reflect the initial objectives?
